#725 All-Purpose, All-Temperature

Type:

Hot Melt Glue - Ethylene Vinyl Acetate

Solids:

100%

Viscosity 1:

36,400 @ 250° (F) (cps)

@ 325° (F) (cps) @ 375° (F) (cps) 8,600 4.075

SAFT 2:

161° (F)

PAFT 3: Open Time 4: 126° (F)

Mettler Softening Point 5;

65 seconds

Color:

176° (F)

Clear

Odor:

Slight

Shelf Life: Flash Point: Indefinite Above 450° (F)

FDA Status:

Compositional compliance with FDA Regulation #21CFR175.105 for food packaging.

Storage:

Common Storage

Application Temperature: 250° (F) to 380° (F)

Suggested Uses: A hot melt adhesive designed for low, high and dual-temperature glue guns. General purpose adhesive with long open time and good delivery rate. In high temperature offers good adhesion to most plastics and woods. In low temperature offers good adhesion to heat sensitive substrates as Styrofoam, paper, fabric and ribbons.

Precautions:

Do Not Mix with other adhesives

Severe burns will result if contact is made in molten state.

Material safety data sheets provide safety precautions that should be observed in handling

and storing.

The buyer should conduct its own tests of this product before use to determine proper preparation technique and suitability for proposed application. FPC warrants that the product conforms with FPC written specifications, and is free from defects. FPC disclaims all other warranties, expressed or implied, including the warranties of merchantability and fitness for a particular purpose. The buyer's sole remedy for non compliance with this warranty shall be for the replacement of the product or refund of the buyer's purchase price.

Brookfield Viscosity - ASTM D3236 using spindle SC4-27

² Shear Adhesion Failure Temperature (SAFT) - ASTM D4498 - using 45# Kraft paper aubstrates, 500 g. weights

Peol Adhesion Faiture Temperature (PAFT) – ASTM D4498 (modified for peel mode) – using 45# Kraft paper substrates, 100 g.

^{*}Open Time -- ASTM 04497-94 (1999) -- using 45# Kraft paper substrates

⁵ Mettler Softening Point - ASTM D6493-99

INHALATION: No effects expected from product in normal solid Breathing fumes or vapors of molten material may cause irritation and respiratory tract.	Remove affected person to fresh air; if symptoms persist seek medical attention.								
SKIN: None expected from product in normal solid form. Therms result from contact with molten material.	For contact with molten material, carefully remove contaminated clothing, apply clean, cold water to affected area; do not attempt to remove solidified material; cover affected area with clean, wet compresses; seek immediate medical attention.								
EYES: Contact with normal solid product may cause irritation. Contact with molten material will cause severe thermal burns to eyes.		In case of contact with molten material, flush eyes with clear, cool running water for 15 minutes while holding eyelids open; do not attempt to remove solidified material; seek immediate medical attention.							
NGESTION: Ingestion of solid material may cause gastric distres pains, vomiting and diarrhea. Contact with molten material will cau hermal burns to mouth and trachea.	Give two glasses of water for dilution; DO NOT induce vomiting; seek medical attention.								
HEALTH HAZARDS (ACUTE AND CHRONIC): Acute effects are noticen form is not and will cause severe thermal burns to skin. become hazardous waste upon contact with other products. Refer to "40 CFR Protection" regulations. Consult your local, state, or Federal Environmental Protection Agency before disposing of any chemicals.

The information contained herein is believed to be accurate but is not warranted to be so. Data and calculations are based on information furnished by the manufacturer of the product and manufacturers of the components of the product. Users are advised to confirm in advance of need that information is current, applicable and suited to the circumstances of use. Vendor assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as atiputated in the data sheet. Furthermore, vendor assumes no responsibility for injury caused by abnormal use of this material even if reasonable safety procedures are followed. Any questions regarding this product should be directed to the manufacturer of the product as described in Section 1.
