# Material Safety Data Sheet

Page 1 of 6

In accordance with 91/155/EEC

Commercial product name: Fibrepen with cone shaped point - vented cap- washable inks

Product n°: 560 100 Colours

Date: 21/04/99

Date of revision: 06/03/98

## 1 Identification of the substance/preparation and of the company/undertaking

1.1 Identification of the substance or preparation: Fibrepen with cone shaped point-vented cap -- washable inks

1.2 Company/undertaking identification: GIODI S.p.A

C.so Piemonte, 66

10099 - S.Mauro T.se (TO) - Italia

Tel.: 011/8951926

Fax: 011/8950976

## 2 Composition/information on ingredients

**Chemical characterization:** item with barrel and cap in polypropilene, plug in polyethylene high and low density, nib in polyethylene, filter in polyester, containing water, polyhydroxyl alcohols, dyes and additives.

Substances presenting a health hazard within the meaning of Dangerous Substances Directive 67/548/EEC.

In accordance with 91/155/EEC

**Commercial product name:** Fibrepen with cone shaped point - vented cap- washable inks

**Product n°:** 560 100 Colours

**Date:** 21/04/99

**Date of revision:** 06/03/98

## 3 Hazards Identification

na

## 4 First aid measures

**Eye contact:** flush with water, if the ink gets in contact with eyes; if irritation persists, consult physician.

**Skin contact:** wash the exposure skin area with soap and water, if the ink gets in contact with it.

**Ingestion:** no poisoning danger. Seek medical care for eventual cap removal. The vented cap has sufficient air flow which allows the injured person to reach a medical center in order to proceed with removal.

**Inhalation:** na

## 5 Fire-fighting measures

**Extinguishing Media:** foam or humid fog.

**Recommendations:** not complete combustion can produce CO and/or CO<sub>2</sub> or other dangerous products. The firemen must wear the special equipment for combustion accidents.

## 9 Physical and chemical properties

### 9.1 Appearance

physical state: solid

colour: various

odour (inks): characteristic

### 9.2 Safety parameters:

pH: 7 - 9

Change in physical state: boiling point: na

melting point: >130 °C

flash point: na

flammability: >260 °C

ignition temperature: 388 °C

explosion limits:

lower: na

upper: na

vapour pressure: na

relative density: 0.95

oxidizing properties: na

solubility:

in water: na

in fat: na

## 10 Stability and reactivity

Combustion can produce CO, CO<sub>2</sub>, polypropitene oligomers at low molecular weight.

## 11 Toxicological information

The item is in conformity to EN71-3 and ASTM D4236 rules.

## 12 Ecological information

Follow strictly the current normatives and do not waste.

## 13 Disposal considerations

Waste disposal must be through incineration.

## 14 Transport information

na
