At the Public Service Leadership Academy, you can choose from some of the nation’s most cutting-edge, high-growth career fields. Through hands-on instruction, internships and mentoring, you can become eligible for industry-recognized certification – and earn college credits while still in high school!

- Students will complete their high school education in an innovative, instructionally integrated setting.
- Students will earn a CTE designation on their high school diploma and an industry credential that identifies them as college- and career-ready. Students will get the academic and social supports they need to succeed in a challenging course of study.
- Students can earn an associate degree or up to two years of transferable college credit while in high school.

Entrepreneurial Academy

**Business Partners**
- Electrical Trades
- Fortino Electric
- I.B.E.W. Local Chapter
- Woydman Electric

**Higher Ed Partners**
- Alfred State College
- Bryant & Stratton College
- Delhi College of Technology
- Onondaga Community College

Homeland Security Academy

**Business Partners**
- Lockheed Martin (Cybersecurity)
- National Integrated Cyber Education Research Center, Shreveport, Louisiana

**Higher Ed Partners**
- Bryant & Stratton College
- Onondaga Community College
- Syracuse University
- Washington College

First Responder Academy

**Business Partners**
- Syracuse Fire Department
- Syracuse Police Department
- Rural/Metro Medical Services

**Higher Ed Partners**
- Onondaga Community College
- Upstate Medical University

Military Security Academy

**Higher Ed Partners**
- United States Navy

- United States Navy
Students will learn the tactics, theory, and skills required for today’s law enforcement professional, including training in DNA analysis, surveillance expertise and white-collar crime.

Fire Rescue Pathway
Students will learn about fire prevention and develop critical fire skills, including fire awareness, tactics and operations, hazardous materials, fire hydraxes and safety management.

Emergency Medical Technician Pathway
EMT instructors will train students to function in a medical emergency while providing pre-hospital care at the scene or during transport.

Forensic Science/Crime Scene Investigations Pathway
Forensic Science/CSI students will learn how to collect and preserve crime scene data and reconstruct a crime scene and gain knowledge in fingerprinting and ballistics.

Law Enforcement/Emergency Management Pathway

Fire Rescue Pathway

Emergency Medical Technician Pathway

Forensic Science/Crime Scene Investigations Pathway

Navy JROTC Pathway
The mission of NJROTC is to instill the values of citizenship, personal responsibility and service to the United States and community. Students learn about maritime heritage, the significance of sea power, the fundamentals of naval operations, seamanship, navigation and meteorology. NJROTC students may apply to ROTC programs at more than 1,000 colleges and universities throughout the nation.

Computer Forensics Pathway
Computer Forensics involves the identification, preservation, recovery, extraction, examination, interpretation, documentation, and presentation of the contents of computer media (digital evidence).

Cybersecurity Pathway
Cybersecurity involves the monitoring of networks for security breaches, responding to cyber attacks, and gathering data and evidence to be used in prosecuting cyber crime.

Geospatial Intelligence Pathway
Geoint is an intelligence discipline comprising the analysis of geospatial data to describe, assess, and visually depict physical features and geographically referenced activities on earth.

The students enrolled at the First Responder, Homeland Security, and Military Science Academies will also take four years of Arabic, American Sign Language, or Spanish. The intelligence community needs interpreters, engineers, and scientists, and other professionals who speak Arabic, ASL, and Spanish. These skills are essential for emergency/disaster management.

Students in this comprehensive two-year program are trained for entry-level employment or post-secondary education and, upon graduation, become candidates to test for New York State Licensure.

In both the Cosmetology/Barbering and Electrical Trades Pathways, business skills will be developed. Students will develop business plans and marketing skills that can help them one day become successful business owners.

For more information on the available programs, visit www.SyracuseCitySchools.com or call 315-435-4964.
