

How to Use Clever with Android and iPhones/iPads

Android:

- There is no Clever App on Google Play
- Get to Clever using your web browser on your phone.
- Then sign in and click on the app you want. Dreambox should open up automatically. Imagine learning will not (does not work on phones).
- SeeSaw needs you to upload the app from google play first then once you click on it in CLEVER it will open up.

iPhones/iPads:

- First make sure you have downloaded the Dreambox, seesaw and imagine learning (only on ipad) apps.
- THEN – download the CLEVER app. Open it up.
- Once you open the Clever app, click Login. It should then open up in your web browser and ask you to log in with your district username and password.
- Once you are logged in, you may select the app you want to use. If you have already downloaded the apps onto your iPad or iPhone, then it should open up right through the actual app.
