

Grade 4 & 5 Enrichment

Forces of Nature

Fasten your seatbelt! We're in for some wild weather! Young meteorologists will explore the when, where, how, and why of all kind of natural phenomenon like tornadoes, earthquakes, and tsunamis.

School Newspaper

Extra! Extra! Read all about it! The Hawk Eye Newspaper needs reporters, researchers, photographers, editors, and artists. Be a part of our growing community!

Robotics

Have you ever wondered what it would be like to build and program your very own robot? In this cluster, you will investigate the cool science of building and programming your own robot to do cool things like move, pick items up, and carry things!

Sounds of the Stage

Lights, Camera, Action! Have you ever wanted to feel what it is like to be a playwright, and perform your own work? Put your actor hat on and get ready to write and act our own monologue or play!

Fashion Design

Have you ever wondered about what it would be like to design your own accessories? In this cluster, you will design and create your own fashion accessories. You will use the computer to develop your design, and then build a loom to create your final project.

Out of this World!

Let us explore the solar system! Scholars will select a planet to investigate and research. They will create a Power Point to share their learning with others.

Running Club

Discover how to run longer, faster, and have fun! Students will engage in team building activities while learning how to run and have fun!

It's All Spanish!

Master some basic Spanish vocabulary while discovering exciting features of Hispanic culture-- food, geography, music, and art. Come to this Enrichment Cluster to enter a fiesta of Spanish and display our new skills with a performance!"
