

A Parent's Guide to Social Media Safety

Tuesday, June 27th • 7:30am-9:00am • FREE Admission
Program & Breakfast • Nottingham High School-Cafeteria • 3100 E. Genesee St.

For children and their parents, social media can be beneficial in so many ways: helping young people develop self-expression, networking skills, technical expertise and an appreciation of different perspectives. Likewise, without proper oversight and guidance, it has a downside: fostering mood disorders, emotional detachment, social media addiction and oversharing, as well as prompting potentially dangerous issues with cyberbullying and stalking.

What can parents do to help today's cybergeneration enjoy the benefits and avert the perils of online engagement?

Please join us for an important discussion with moderator **Jeremy Cali**, Onondaga County

senior assistant district attorney and Special Victims Bureau chief, and panelists **Chris Brown**, superintendent of the West Genesee School District; **Tracy Daige**, high school counselor for the Syracuse City School District, and **Maureen Foran-Mocete**, outreach and education program coordinator for the McMahon/Ryan Child Advocacy Center.

RSVP: smbysyracuse53.splashthat.com

PROGRAM PRESENTED BY:

**McMahon/Ryan
Child Advocacy Center**
