Commitments		
1	Academic	This school is committed to ensuring that all students, especially our diverse learners, have the critical thinking and reasoning skills they need to excel at school and beyond.
2	Academic	This school is committed to ensuring that all students, especially our diverse learners, have the numeracy and literacy skills to prepare them for any path they choose.
3	Attendance	This school is committed to ensuring all students feel a sense of belonging and attend school daily.
4	Student Supports	This school is committed to aligning and maximizing resources to serve and impact each student's needs.

### School Identified Key Strategies (Maximum of 6)

**Directions:** Use the school's needs assessment results to identify strategies from each drop-down menu that the school will prioritize. Refer to the Strategy Companion Guide for additional guidance on each strategy. Note, this means **a maximum of six strategies** across the four commitments. Confirm whether the strategy is "new" (N) – "expanded" (E) – "refined" (R)."

<b>Key Strategy 1:</b> Targeted Accountable Talk Coaching Cycles	<b>PD Plan Link:</b> <a href="#">SY2526 PD Plan</a>	<b>School Lead:</b> Sterpe
--	--	----------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students? Consider both data trends observed and student interview responses.**

Our needs assessment included walkthroughs, survey data, and student interviews, as well as data from the NYS ELA Regents showing that only 56% of economically disadvantaged students achieve higher than level 1. We identified some root causes for this problem, 1. A need for task demands that are structured to support complex thinking, and 2. The need for more opportunities to create meaning, and engage in sense-making discussions that include a range of perspectives. By focusing on targeting coaching of teachers in support of Accountable Talk strategies we can give students more opportunities to engage with higher level task demands and develop complex thinking skills.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.**

This strategy continues the implementation of Accountable Talk in our school. We are moving from setting the stage and establishing systems to deepening the capacity for teachers to plan for student-centered lessons that balance the features of community, knowledge, and rigorous thinking.

<b>IMPLEMENTATION PLAN (AUGUST – OCTOBER)</b>				
<b>Essential Action Steps</b> (Begin with a verb)	<b>Timeline</b>	<b>Person(s) Responsible</b>	<b>Resource Alignment</b> (PD, Budget, People, Time, etc.)	<b>P</b>
Collaboratively plan as teaching teams to incorporate Accountable Talk strategies into instruction with support from Instructional Coach and content Liaisons	By 8/28/25	Peter Sterpe	Summer extension of service time for teachers, coaching office hours	
Determine the completion status for Institute for Learning (IFL) Accountable Talk Microsession 1 – 6 of each teacher and compile and maintain a record. Facilitate IFL Accountable Talk Microsession 1 for teachers who did not complete it last year.	By 9/4/25	Peter Sterpe	PD records	
Update School Walkthrough tool to align with current level of Accountable Talk Implementation	By 9/4/25	School Leadership Team (SLT)	SLT Meeting	
Identify at least two teachers per core content area who would benefit from Plan-Do-Study-Act (PDSA) coaching cycles, pairing teachers with either the building coach or a district content coach as appropriate. Connect these teachers and coaches to begin PDSA coaching cycles.	By 10/31/25	School Leadership Team (SLT)	Initial walkthroughs, PLT time,	

<b>PROGRESS MONITORING (AUGUST – OCTOBER)</b>

<b>Key Strategy 3:</b> PLC: Promoting a Collaborative Culture	<b>PD Plan Link:</b> <a href="#">SY2526 PD Plan</a>	<b>School Lead:</b> Killenbec
---	--	-------------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students? Consider both data trends observed and student interview responses.**

Our needs assessment included walkthroughs, student interviews, and data from the NYS Algebra Regents showing an increase in students performing at level 1 and 2 and a decrease in students performing at level 3 and above. Some root causes of this include 1. A lack of structured PLTs in content, and 2. A lack of content-based aligned learning objectives across classrooms. By focusing on collaboration and data-driven instruction this strategy aims to create more consistent and effective educational experiences for all students.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.**

We attempted to support learning through the implementation of PLCs across our school in 2024-2025 but the data from the NYS Algebra Regents showing an increase of students performing at a level 1 and 2 and a decrease of students performing at a level 3 or higher shows that we need to refine this strategy. Therefore in 2025-2026 we will refine the PLC process at Nottingham by adding explicitly planned content PLTs weekly after school and providing training and support.

<b>IMPLEMENTATION PLAN (AUGUST – OCTOBER)</b>				
<b>Essential Action Steps</b> (Begin with a verb)	<b>Timeline</b>	<b>Person(s) Responsible</b>	<b>Resource Alignment</b> (PD, Budget, People, Time, etc.)	<b>P</b>

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students? Consider both data trends observed and student interview responses.**

Our needs assessment included walkthroughs, student interviews, and data from the NYS ELA Regents showing that only 56% of economically disadvantaged students achieve higher than level 1. Some root causes indicated by our needs assessment included 1.) The need for consistent formative assessment strategies across classrooms, 2.) missed opportunities for timely instructional adjustments. By focusing on developing better formative assessment practices we can create more consistent opportunities for student learning across all classrooms.

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students? Consider both data trends observed and student interview responses.**

Our needs assessment included walkthroughs, student interviews, and graduation data that shows that students who are economically disadvantaged have a 3% lower graduation rate than other students. Some root causes indicated by our needs assessment included 1.) A lack of regular and meaningful check-ins between staff and students, 2.) A lack of understanding of graduation requirements by all students. This suggests that structured staff-to-student check-ins can strengthen relationships, increase student engagement, and positively impact attendance, increasing our graduation rate for economically disadvantaged students.

<b>Key Strategy 6:</b> Student-Led Conferences	<b>PD Plan Link:</b> <a href="#">SY2526 PD Plan</a>	<b>School Lead:</b> Hogle
--	--	---------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students? Consider both data trends observed and student interview responses.**

Our needs assessment included walkthroughs, student interviews, and Regents exam data that shows in Algebra I, an increase in Level 1 students from 46% in 2021-22 to 51% in 2023-24, while Level 3 students decreased from 31% to 16% over the same period. Student interviews revealed that many felt uncertain about their academic standing. Root causes indicated by our needs assessment included: 1.) A lack of consistent and meaningful communication between teachers, students, and parents, 2.) Limited opportunities for students to understand and articulate their progress towards graduation requirements. This suggests that implementing Student-Led Conferences can address these issues by providing structured opportunities for students to reflect on their academic progress, enhancing communication between all stakeholders, and increasing student engagement in their own learning process by giving them an increased sense of ownership.

**Student Supports Commitment:** This school is committed to aligning and maximizing resources to serve and impact each student's needs.

<b>Key Strategy 6:</b> Student-Led Conferences	<b>PD Plan Link:</b> <a href="#">SY2526 PD Plan</a>	<b>School Lead:</b> Hogle
--	--	---------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students? Consider both data trends observed and student interview responses.**

Our needs assessment included walkthroughs, student interviews, and Regents exam data that shows in Algebra I, an increase in Level 1 students from 46% in 2021-22 to 51% in 2023-24, while Level 3 students decreased from 31% to 16% over the same period. Student interviews revealed that many felt uncertain about their academic standing. Root causes indicated by our needs assessment included: 1.) A lack of consistent and meaningful communication between teachers, students, and parents, 2.) Limited opportunities for students to understand and articulate their progress towards graduation requirements. This suggests that implementing Student-Led Conferences can address these issues by providing structured opportunities for students to reflect on their academic progress, enhancing communication between all stakeholders, and increasing student engagement in their own learning process by giving them an increased sense of ownership.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.**

## EVIDENCE-BASED INTERVENTION

All key strategies pursued by schools should be rooted in evidence. All schools must implement at least one evidence-based intervention that meets the criteria of a Tier 1, Tier 2, or Tier 3 evidence-based intervention under ESSA. More information can be found at: <http://www.nysed.gov/accountability/evidence-based-interventions>.

School teams should indicate **all** of the evidence-based interventions that meet the federal definition that will be pursued next year by placing an “X” in the corresponding box below. Schools that adopt the State-Supported Evidence-Based Intervention **under the parameters outlined** at: <https://www.nysed.gov/accountability/state-supported-evidence-based-strategies> will fulfil the evidence-based intervention requirement.

## SCEP DEVELOPMENT TEAM PARTICIPATION

In the first two columns, identify the members of the SCEP team and their role (e.g., teacher, assistant principal, parent). In the rest of columns, indicate that team member's participation in each of the activities by identifying the date that person participated in that activity OR leaving the space blank if the person did not participate in that activity.

## LEARNING AS A TEAM

Directions: After completing the previous sections, the team should complete the reflective prompt below.

### Student Interviews

Describe how the Student Interview process informed the team's plan.

The Student Interview process, including individual Redesign interviews and focus groups using questions to dig deeper into Panorama survey data, significantly shaped our SCEP. Their input led to specific actions in our implementation plan, such as regular creation and analysis of common formative assessments, embedding CER writing and vocabulary support in Academy PLT time, and focusing on differentiated instruction. This student-centered approach informed our progress monitoring indicators. It also guided our long-term planning, which includes a comprehensive review of their impact on student achievement. By incorporating student voices, we ensured our SCEP addresses real needs, aligning with our commitment to improve engagement and academic performance across all content areas at Nottingham High.

### *Schools in the ATSI and TSI model only*

### Subgroup Spotlight

Describe how the team has determined that the strategies in this plan are likely to result in improved subgroup performance for the subgroup(s) for which the school has been identified.

Our strategies are designed to improve outcomes for economically disadvantaged students through a comprehensive approach. By implementing formative assessment practices, strengthening PLCs, and focusing on essential standards and SMART goals, we ensure consistent, high-quality instruction for all students. Through strong PLC work in content teams we can ensure that every classroom offers the same high-quality instruction and that students with learning gaps have their needs specifically addressed.
