Interview Committees must recommend a student for enrollment. Once a recommendation is made, the student becomes eligible to enter the lottery for the school or program requested. If there are more students recommended for a school or program than seats available, the Department of Student Registration will conduct a lottery using the Smartchoice Online Lottery System. If a student is not selected in the lottery, they will be automatically added to the waitlist and required to remain enrolled in their current school, if applicable, or attend their feeder middle school. The waitlists will be monitored through the end of the first marking period. Families are required to reapply each year, but will not have to participate in the referral, testing or interview process each year.
