PUBLIC SERVICE
LEADERSHIP
ACADEMY
AT FOWLER

The path to your dream career is waiting....

LET'S TAKE
THE FIRST STEP.

At the Public Service Leadership Academy, you can choose from some of the nation's most cutting-edge, high-growth career fields. Through hands-on instruction, internships and mentoring, you can become eligible for industry-recognized certification – and earn college credits while still in high school!

- Students will complete their high school education in an innovative, instructionally integrated setting.
- Students will earn a CTE designation on their high school diploma and an industry credential that identifies them as college- and career-ready. Students will get the academic and social supports they need to succeed in a challenging course of study.
- Students can earn an associate degree or up to two years of transferable college credit while in high school.

First Responder Academy

Law Enforcement/Emergency Management Pathway

- Students will learn the tactics, theory, and skills required for today's law enforcement professional, including training in DNA analysis, surveillance expertise and white-collar crime

Fire Rescue Pathway

- Students will learn about fire prevention and develop critical fire skills, including fire awareness, tactics and operations, hazardous materials, fire hydraulics and safety management

Emergency Medical Technician Pathway

- EMT instructors will train students to function in a medical emergency while providing pre-hospital care at the scene or during transport

Forensic Science/Crime Scene Investigations Pathway

- Forensic Science/CSI students will learn how to collect and preserve crime scene data and reconstruct a crime scene and gain knowledge in fingerprinting and ballistics

Homeland Security Academy

Computer Forensics Pathway

- Computer Forensics involves the identification, preservation, recovery, extraction, examination, interpretation, documentation, and presentation of the contents of computer media (digital evidence)

Cybersecurity Pathway

- Cybersecurity involves the monitoring of networks for security breaches, responding to cyber attacks, and gathering data and evidence to be used in prosecuting cyber crime

Geospatial Intelligence Pathway

- GEOINT is an intelligence discipline comprising the analysis of geospatial data to describe, assess, and visually depict physical features and geographically referenced activities on earth

Military Science Academy

Navy JROTC Pathway

- The mission of NJROTC is to instill the values of citizenship, personal responsibility and service to the United States and community
- Students learn about maritime heritage, the significance of sea power, the fundamentals of naval operations, seamanship, navigation and meteorology
- NJROTC students may apply to ROTC programs at more than 1,000 colleges and universities throughout the nation

Students enrolled at the First Responder, Homeland Security, and Military Science Academies will also take four years of Arabic, American Sign Language, or Spanish. The intelligence community needs interpreters, engineers, and scientists, and other professionals who speak Arabic, ASL, and Spanish. These skills are essential for emergency/disaster management.

Entrepreneurial Academy

Cosmetology/Barbering Pathway

- Students in this comprehensive two-year program are trained for entry-level employment or post-secondary education and, upon graduation, become candidates to test for New York State licensure

Electrical Trades Pathway

- Includes all aspects of residential wiring as well as commercial/ industrial applications
- By the end of junior year, students will have entry-level skills and be certified through a 10-hour OSHA safety course

In both the Cosmetology/Barbering and Electrical Trades Pathways, business skills will be developed. Students will develop business plans and marketing skills that can help them one day become successful business owners.
