99 1 4-3559 251: version 1.001

MATERIAL SAFETY DATA SHEET

H. B. Fuller Company 1200 Wolters Bouleyard Vadnais Heights, Minnesota 55110 Thate: 07 February

Prepared by: Industrial Hygiene Telephone Number: 612/481-3300

Emergency Medical Telephone Number: 800/228-5635

PRODUCT IDENTIFICATION

H. B. Fuller Company Name: PA-3859 251

Product Class: SYNTHETIC RESIN based product in water

DOT Proper Shipping Name: Not a regulated material

WARNING STATEMENTS

No specific warnings for normal use conditions.

PRECAUTIONARY MEASURES

Avoid temperature extremes in storage.

EMERGENCY AND FIRST AID PROCEDURES

FIRST AID:

Flush immediately with water for 15 minutes. Consult a physician if irritation persists. If in eye:

Wash affected area with soap and water. contaminated clothing before reuse. If on skin: Launder

If vapors inhaled: Remove subject to fresh air.

In case of fire: This product is non-flammable in the liquid state.

Use water spray, foam, dry chemical or carbon dioxide on dried product.

Contain and remove with inert absorbent. Keep spill Spill or Leak:

out of sewers. .

HAZARDOUS INGREDIENTS

ACCIH TLY Level Material Name/CAS # In Residual vinyl acetate monomer (108-05-4) In Product (1988,1989) OSHA PEL 10 ppm 10 ppm

Flash point, F: 18 LEL, %: 2.6

Vapor pressure, in mm Hg @ 20 C: 92 OSHA STEL: 20 ppm ACGIH STEL: 20 ppm

This MSDS is prepared to comply with the OSHA Hazard Communication Standard (29 CFR 1910.1200). Unlisted ingredients are not 'Hazardous' per this OSHA Standard and are considered to be trade secrets of the H. B. Fuller Company. Identities of trade secret ingredients will be made available following the procedures specified in the standard.

version 1.001

CUPATIONAL CONTROL PROCEDURES

Eye Protection:

Wear safety glasses to reduce the potential for eye contact; chemical safety goggles are appropriate if splashing is likely. Have eye washes available where eye contact can occur.

Skin Protection:

Prevent prolonged or repeated contact by using rubber gloves and appropriate protective Launder contaminated clothing before clothing.

reuse.

Respiratory Protection:

Not normally required.

Ventilation:

Standard industrial ventilation.

RE PROTECTION

Flash Point/Method:

Non-flammable

Appropriate Extinguishers: Non-flammable in liquid state; use water spray, foam, dry chemical or carbon dioxide on dried

Special Fire Fighting Procedures:

Fersons exposed to products of combustion should wear self-contained breathing apparatus and full protective equipment.

Unusual Fire and Explosion Hazards:

There is the possibility of pressure buildup in closed containers when heated. Water spray may be used to cool the containers.

ACTIVITY DATA

Stability:

Stable

Incompatibility:

Not established

Hazardous Decomposition Products: Incomplete combustion can yield low molecular weight hydrocarbons, carbon monoxide

Hazardous Polymerization:

Will not occur.

FECTS OF OVEREXPOSURE

Eyes:

Direct eye contact with the product may cause irritation.

Skin:

Prolonged or repeated contact with liquid product may cause irritation.

Inhalation:

Exposure to vapors in poorly ventilated areas may cause irritation of the nose, throat and respiratory tract.

Chronic:

Vinyl acetate has been shown to cause cancer in tests with laboratory animals. Overexposure may increase cancer risk. Overexposure to vinyl acetate should not occur with normal handling and use.

Existing Health Conditions Affected by Exposure: No known effects on other illnesses. ZUL Version 1.001

HYSICAL DATA

Physical State:

Liquid

Weight per Gallon:

8.9 lbs.

Viscosity:

5750 cps

% Solids by Weight:

30

pH:

Boiling Range:

Greater than 200 F

Soluble in Water:

Miscible

SPILL, LEAK & DISPOSAL INFORMATION

Spill or Leak Procedures: Dike if necessary, contain spill with inert absorbent and transfer to containers for disposal. Keep spilled product out of sewers, watersheds or water systems.

Waste Disposal: To the best of our knowledge, this product does not meet the definition of hazardous waste under the U.S. EPA Hazardous Waste Regulations 40 CFR 261. I does not contain any added raw materials with known levels of TCLP constituents as identified in section 261.24 of the U.S. EFA Hazardous Waste Regulation. Leachate tests have not been performed. State or local hazardous waste regulations may apply if they are different from the federal regulation. Solidify and dispose of in an approved landfill. For additional waste disposal assistance, consult H.B. Fuller Environmental Services at 612/481-1588.

STORAGE

Protect from freezing - product stability may be affected.

ADDITIONAL INFORMATION

In storage, monomer vapors will migrate from the emulsion and establish an equilibrium between the headspace in the storage container and the liquid emulsion. Levels in excess of acceptable exposures can accumulate in non-vented headspaces above the emulsion. All procedures appropriate for a confined space entry should be completed prior to performing any work in a bulk storage tank.

REGULATORY INFORMATION

TSCA

All components of this product are registered under the regulations of the Toxic Substances Control Act.

259 251 Version 1.001

SARA TITLE III

Section 313: This product contains the following toxic chemical(s) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) and 40 CFR part 372:

Chemical Name

CAS Number

Percentage

Vinyl acetate

108-05-4
