2023-24 Contract for Excellence Narratives

Program Narrative - Please address changes in your existing C4E programs, including any redesign or reallocation. Also, describe how activities support the Regents Reform Agenda.

The District will maintain Time on Task efforts by focusing on aspects of the instructional core and providing targeted instruction and intervention to students. Teaching assistants will continue to enhance our ability to provide targeted small group tutoring as well as individual instruction, and we will continue to support literacy and numeracy skills for students who are underperforming in all middle schools via ELA, mathematics, and reading teachers. This will also include supports provided to us through the implementation of Say Yes to Education.

Full-day Kindergarten and PreK programs will be maintained. PreK classes at Grant Middle School will continue to be held at the site as we expand programming to serve more preschoolers with disabilities. We are adjusting our kindergarten model of specialized support to provide enhanced ratios of teaching assistants as preschoolers transition to school-age programs. This additional staffing allows for a more inclusive model for kindergarten students who were unable to access services in preschool.

The District is shifting to a full dual language bilingual education model at Seymour, including a new bilingual special education strand. We opened Delaware Primary school at Delaware's campus to offer sheltered ENL instructional programming for students, and this year we are phasing in new Montessori programming at the PreK level, to be grown grade by grade for the next seven years until the entire school is implementing Montessori. These schools both feed into Syracuse STEM at Blodgett, where secondary bilingual programming support continues. In addition, our sheltered approach to ESL instruction will provide more support to students in need of English language development so that we are graduating a higher percentage of our English Language Learners.

We have also restructured Fowler High School to open a new school focused on challenging academic content and learning opportunities through career and technical education (CTE) programs. The Public Service Leadership Academy at Fowler serves students in grades nine through twelve, and new special education and ENL staff have been added to support ELLs and students with disabilities engaged in the 13 different CTE programs in the school.

Targeting Narrative - Please address both student educational need and building-level accountability status as reflected in the attached Targeting Matrix. Explain how the district and school Comprehensive Plan supports the program.

All C4E funds have been targeted to C4E identified schools following the Educational Need Matrix. We are targeting ELL students and literacy and numeracy initiatives with school-based instructional coaches and additional ELA and math teachers. We are targeting PreK-12 students with the implementation of our Say Yes to Education program to address social-emotional needs and wraparound supports in all quadrants of the District. In addition, we will still maintain full-day PreK classes added since 2007.

2023-24 Contract for Excellence Narratives

Performance Narrative - Describe the district's expected performance targets for the accountability criteria and disaggregated groups for those schools within the district not in good standing.

The Syracuse City School District was identified in 2004 as a District in Need of Improvement for English Language Arts achievement for the student with disabilities (SWDs) and English language learners (ELLs) subgroups. Since the Elementary and Secondary Education Act Every Student Succeeds Act (ESSA) was approved, our district has been identified as a Target District with seventeen schools identified as Comprehensive Support and Improvement Schools (CSI), four schools identified as Additional Targeted Support and Improvement Schools (ATSI), and two State-determined Receivership Schools. We are working to put systemic improvements in place to address the large numbers of students with disabilities not graduating in four or five years and/or dropping out, including adjusting our continuum of services at the high school level and supporting a continuum model by quadrant for grades PreK-12.

The percentage of students living in poverty continues to increase each year with more than 80% of our students qualifying for free or reduced meals during the 2022-23 year. More than 20% of our K-12 students are identified as students with disabilities and over 17% of our students are English Language Learners. These high-risk factors are challenges faced by all of our schools and our community as a whole. As a result, many interventions or initiatives that are implemented are done so Districtwide to improve student achievement in all classrooms. In addition to the systematic effort, additional supports are provided to our most underperforming schools where there are high percentages of struggling students.

Our schools in highest academic need also have a high level of poverty and in many cases high numbers of ELLs and students with disabilities, who at times account for more than a third of a school's overall student population. Our struggling students need more time and intervention to close achievement gaps through after school programs, summer school, specialized ELA and math courses designed to catch students up, and individual and small group tutoring and instruction. The increase of ELA and math teachers who use differentiated instruction to meet the needs of these at-risk students, including those with disabilities and ELLs, will better support all students toward graduating from high school to be college and career ready.

Our Say Yes to Education Project will assist in supporting afterschool programs, summer programs, tutorials, and higher education incentives to encourage students to stay in school, graduate and go on to college. Say Yes will also provide social-emotional supports for students in the primary grades as well as legal services for families, mentoring for our middle level students, mental health services, increased social workers in our buildings and a new student assessment system.

Experimental or District-wide Programs Narrative - If applicable.
