

What is CTE?

Career & Technical Education (CTE)

The Syracuse City School District offers CTE programs in all 6 high schools. Students can opt to attend the school that will give them the best CTE experience.

Students will also have the opportunity to obtain required, relevant industry-recognized certification. The CTE curriculum is enriched by hands-on instruction, experiences, and internships with local businesses and partners.

What is P-TECH?

Pathways in Technology Early College High School (P-TECH)

The P-TECH program is designed to motivate and enable students to earn a college degree and successfully transition into the workplace, with the preparation and skills needed by employers.

Fire Rescue	Remotely Piloted Aircraft Systems
Forensic Science	Semiconductor Microchip Technology
Geospatial Technology	
HVACR	
Law Enforcement	
Manufacturing Technology Pre-Apprenticeship	

Be a Career Coach

What do Career Coaches do?

We're looking for professionals interested in providing insight into their world of work and engaging students in workplace learning.

As a Career Coach you will:

- ✓ Prepare students for the "world of work"
- ✓ Give students an opportunity to work with a professional in their field of study
- ✓ Share job, career and business experience
- ✓ Tell the students how you got where you are

Career Coach Requirements

No teaching experience necessary—our CTE Team will guide you!

"I have been volunteering regularly at Henninger High School for the last 4 years and it is as important to me as working with my patients and staff at the hospital. One of my favorite parts of volunteering

this year is seeing the same students each month and recognizing them and having them recognize me. Then we can be ourselves and talk and work together to get stuff done. I get so much from the students when they ask questions, it invigorates me to answer them, and I really reflect on what the students are trying to gain with the answers. Because we are honest with each other and familiar, you can feel the difference a conversation might make in their life and yours."

Adrienne Hickey

Associate Director, Upstate University Hospital
Respiratory Therapy Department

"I'm learning skills that are used in real construction jobs, so I feel like I'll have a head start when I graduate. It's also helping me understand what kinds of jobs are out there, and I'm more confident

about choosing a career in construction or even going to college to learn more about it."

Abdifatah Alinur

10th Grade Construction Technology Student
