

Syracuse City School District

HIGH SCHOOL CHOICE

Career and Technical Education Program

- Programs of choice
- Offered at all high schools
- 9th – 12th pathway model
- College-level credits and degrees
- Industry Recognized Credentials

Automotive Technology
Barbering
Business Technology
Computer Forensics
Construction Technology
Cosmetology
Culinary Arts
Cybersecurity
Electrical Trades
Emergency Medical Technician
Fire/Rescue
Forensic Sciences
Geospatial Technology
Health Careers— Health Professions
Health Careers— Medical Assisting
**New* HVAC/R Heating Ventilation Air
Conditioning and Refrigeration Clean Energy
**New* Artistic Innovative Design
Natural Resources
Law Enforcement
Manufacturing Pre-Apprenticeship
Media Communications
Urban Teaching Preparation Program
Welding

Pathways in Technology Early College High School

- NYS grant funded programs
- Partnership with SCSD, Community College and Industry
- Pathway to an Associates Degree and first inline for jobs!
- No cost to student or parent/guardian

Clinical Laboratory Technology

Health Information Technology

***New** Health Sciences

Remotely Piloted Aircraft Systems

Computer Information Systems

Electrical Technology

Mechanical Technology

***New** Semiconductor Microchip Technology

High School Choice Options

- Not Career and Technical Education programs
- High School pathway programs
- 4-year programs
- College and Career preparation

Biotechnology Program

Navy National Defense Cadet Corps

International Baccalaureate

Public Service Leadership Academy @ Fowler

Barbering
Business Technology
Computer Forensics
Cosmetology
Cybersecurity
Electrical Trades
Emergency Medical Technician

Fire Rescue
Forensic Science
Geospatial Technology
Law Enforcement
Navy National Defense Cadet Corps
(NNDCC)

P-TECH Programs
Remotely Piloted Aircraft Systems
Computer Information Systems

Barbering

Career Opportunities

- Hair Stylist
- Barber
- Shop Owner
- Manager

This program is designed to prepare students for entry-level employment or post-secondary education. Students will learn the important skills necessary to prepare for this career.

Business Technology

Career Opportunities:

- Accountant
- Advertising
- Data Analyst
- Banking
- Business Administration
- Communications/Info Technology
- Entrepreneurship
- Human Resources
- Legal
- Marketing
- Public Administration
- Public Relations
- Sales/Business Development
- Transportation & Supply Logistics

The Business Technology programs will provide skills necessary to pursue business or finance degrees in college, learn the fundamentals of running a successful business and develop career ready practices.

Computer Forensics

Career Opportunities

- Information Technology
- Law Enforcement
- Computer Forensics Specialist
- Digital Forensics Expert

Computer forensics is the application of investigation and analysis techniques to gather and preserve evidence from computing devices in a way that is suitable for presentation in a court of law.

Cosmetology Pathway

Career Opportunities

- Hair Stylist
- Makeup Artist
- Salon Owner/Manager
- Nail Technician
- Esthetician
- Product Educator
- Color Specialist

This program is designed to prepare students for a career in the beauty enhancement field. Classes follow the NYS approved curriculum required for taking the state licensing exams.

Cybersecurity Pathway

Career Opportunities

- Cyber Threat Analyst
- Security Manager
- Information Security Analyst
- Information Technology

Cybersecurity involves the monitoring of networks for security breaches, responding to cyber attacks, and gathering data and evidence to be used in prosecuting cyber crime.

Electrical Trades

Career Opportunities

- Electrician
- Transmission Technician
- Lineman
- Residential Wireman

This program provides the hands-on skill development and technical training to secure entry-level employment or higher in the electrical trades field.

Emergency Medical Technician (EMT)

Career Opportunities

- Emergency Medical Technician
- Paramedic
- Medical Professions

EMT program trains students to function independently in a medical emergency and provide pre-hospital care at the scene of an emergency and en route to a hospital.

Fire Rescue

Career Opportunities

- Firefighter
- Fire Protection Professional
- Industrial Fire Safety Professional
- Fire Investigator/Fire Inspector
- Emergency Management
- Fire Code Enforcement
- Forestry Fire Prevention Specialist

Students will learn about fire prevention and develop critical fire skills necessary to handle the challenges and demands of fire protection. Students will also learn skills needed to react effectively in an emergency situation. Students will graduate with several industry credentials.

Forensic Science

Career Opportunities

- Evidence Technician
- Police Detective
- Medical Examiner
- Crime Scene Investigator
- Private Investigator
- Forensic Photographer
- Fingerprint Technician
- Forensic Scientist

Forensic sciences play a vital role in the criminal justice system by providing investigators with scientifically based information through the analysis of physical evidence.

Geospatial Technology

Career Opportunities

- Geospatial Technician
- Geospatial Analyst
- Geospatial Software Developer
- Web Application Designer
- Satellite & Aerial Imaging Technician
- Forestry, Agriculture, & Natural Resource Manager
- Community & Urban Planning

Geographic Information System (GIS) professionals use information about geographical features, to visualize and assess real-world problems, in order to provide solutions.

Navy National Defense Cadet Corps (NNDCC)

Career Opportunities

- Military Leadership
- Engineering and Applied Science
- Health Care
- Communications
- Environmental Health & Safety
- Human Resources/Social Work
- Legal/Law Enforcement/Security
- Mechanic & Repair Technicians
- Surface/Aviation/Special Warfare
- Transportation & Supply Logistics

The mission of NNDCC is to instill in students the values of citizenship, service to the United States, personal responsibility and a sense of accomplishment.

Law Enforcement

Career Opportunities

- Law Enforcement
- Private Investigator
- F.B.I. Agent
- State Trooper
- Secret Service Agent
- U.S. Marshall
- A.T.F. Agent

Prepares students to react appropriately and professionally to situations where the public might be put at risk by natural or man-made emergencies.

P-TECH: Remotely Piloted Aircraft Systems

Career Opportunities:

- Drone pilot
- Disaster Relief, Search & Rescue
- Law enforcement, Border patrol
- Oil & gas operations
- Agriculture, Forestry
- Engineering
- Computer Science
- Commercial contractors
- Film

The RPAS program prepares students to enter this fast growing field. Students will participate in hands-on-learning, working with both simulators and real drones. They will learn the basic skills necessary for piloting, engineering and repairing RPAS.

P-TECH: Computer Information Systems

Career Opportunities

- Programmer
- Junior Systems Analyst
- Web site managers/designers
- Operations trainee
- Tech Support/Helpdesk
- Network trainee

Students in the CIS program will learn about information processing, networks, hardware, software applications and web publishing through hands-on activities.

Corcoran High School

International Baccalaureate Program

***New** HVAC/R Heating Ventilation Air Conditioning and Refrigeration
Clean Energy

Manufacturing Technology Pre-Apprenticeship Program

Urban Teacher Preparation Program

Welding Technology

***New** P-TECH Semiconductor Microchip Technology

International Baccalaureate Diploma Program

- Rigorous college preparatory curriculum
- Promotes the education of the whole person; emphasizing intellectual, personal, emotional and social growth
- Receive up to 30 college credits and earn college sophomore status while still in high school!

Manufacturing Technology Pre-Apprenticeship

Training for careers in manufacturing technology.
In-demand jobs!

- Machinists
- Electronic Assemblers
- Metal & Plastic Machine Operators
- Tool & Die Makers
- Mechanical Technician
- Quality Control Inspectors
- Forklift Operator
- Testing Technician

The program offers students the opportunity to work as a pre-apprentice in a manufacturing field of their choice. Students will receive assistance in matching up their interests and skills to a specific manufacturing career and will learn basic technical and career readiness skills that will prepare them for a Registered Apprenticeship.

Urban Teacher Preparation

Career Opportunities

- Classroom Teacher K-12
- Teaching Assistant
- Coach

Students in the program will learn about and practice the unique skills required to be a successful educator in a diverse urban environment.

Welding Technology

Career Opportunities

- Welding
- Construction
- Fabrication

Learn the skills of welding through classroom and hands-on laboratory experience. Students will be prepared to certify through the American Welding Society standards of welding.

*New HVAC/R Heating Ventilation Air Conditioning Refrigeration Clean Energy

Career Opportunities

- HVACR Installer
- Construction
- Fabrication
- Maintenance
- Systems Designer
- Repair

HVACR technicians install, maintain, and repair heating, cooling, and refrigeration systems.

*New P-TECH: Semiconductor Microchip Technology

Career Opportunities

- Cleanroom
- Manufacturing
- Fabrication
- Maintenance
- Designing
- Inspection

Semiconductor Technicians help manufacture semiconductors with the use of special purpose furnaces, x-ray equipment, chemical baths, and equipment used to form circuitry and change conductive properties.

Institute of Technology at Syracuse Central High School

Automotive Technology

Biotechnology Program

Culinary Arts

Media Communications

P-TECH Programs: Electrical Technology and Mechanical Technology

27

Automotive Technology

Career Opportunities

- Professional Mechanic
- Body Shop Technician
- Automotive Repair
- Garage Owner
- Maintenance Mechanic

Teaches diagnostics and repair of all automotive systems using modern tools and diagnostic equipment with an emphasis on engine performance, electrical systems, brakes systems, steering and suspension systems.

STEM Pathway: Biotechnology

Career Opportunities

- Physician
- Physician Assistant
- Medical Technology
- Biotechnology
- Environmental Science

In this STEM pathway, students will be exposed to several different levels of science and math courses. Students will begin earning college credits as early as their 9th grade and will earn a minimum of 24 college credits. Excellent for students wishing to pursue a science or math based career such as:

Culinary Arts

Career Opportunities

- Personal & Private Chef
- Catering
- Restaurant Owner
- Pastry Chef
- Line Cook
- Restaurant & Banquet Management

Students will learn the skills needed to excel in a career in the culinary professions including pastry/baking techniques, food preparation, restaurant management, and food and kitchen safety.

Media Communications

Career Opportunities

- Reporter
- Anchor
- Producer
- Editor
- Public Relations
- Advertising
- Spokesperson

Students will learn to work in a professional television studio, operate the schools news and communication network, create communication media of multiple formats (web-based, digital and print).

P-TECH: Electrical Technology

Career Opportunities

- Electrical Engineer
- Electronics Technician/
Installer/Repair
- Electrician

Students will construct, test, analyze, trouble shoot and repair electrical and mechanical systems. Students will learn about electronics, industrial controls, instrumentations, power distribution and electronic hardware.

P-TECH: Mechanical Technology

Career Opportunities

- Mechanical Engineer
- Drafter
- Machinist/Tool and Die Maker

Students will construct, test, analyze, trouble shoot and repair mechanical systems. Students will learn about mechanical systems, computer-aided design and manufacturing systems.

Henninger High School

Health Careers Programs

Medical Assisting
Health Professions

P-TECH Programs: Clinical Laboratory Technology, Health Information Technology, Health Sciences

Medical Assisting

Career Opportunities

- Medical Lab Technician
- Phlebotomist
- Nurse
- Case Manager
- Radiology Technician

Students who are interested in working in a health care environment with both patient care and medical technology.

Health Professions

Career Opportunities

- Nursing
- Medical Imaging
- Radiation Therapy
- Respiratory Therapy
- Physician Assistant

Health care professions are among the fastest growing occupations in the United States. This program will help students prepare for a health profession career. In this college preparatory program, students will learn while being exposed to a variety of professions through job shadows and classroom experience.

P-TECH: Clinical Laboratory Technology

Career Opportunities

- Medical Laboratory Technicians
- Biological Technicians
- Research Technicians
- Phlebotomists
- Clinical Chemists

Students enrolled in the Clinical Laboratory Technology program will acquire the knowledge and technical skills that will prepare them for entry-level laboratory positions. Lab Techs are the front line in supporting the diagnosis for medical doctors.

P-TECH: Health Information Technology

Career Opportunities

- Health Information Technicians
- Medical Coding Specialist
- Data or Systems Analyst
- HIPPA Privacy Officer

Health information Technology (HIT) is information technology applied to health care. HIT makes it possible for health care providers to better manage patient care through secure use and sharing of health information. Students will develop skills in the use of information technology and patient care management.

*New P-TECH: Health Sciences

Career Opportunities

- Medical Imaging
- Radiation Therapy
- Respiratory Therapy
- Agricultural and Food Scientists
- Epidemiologist
- Physicians and Surgeons
- Veterinarians

Medical scientists conduct research aimed at improving overall human health. They often use clinical trials and other investigative methods to reach their findings. Medical scientists form hypotheses and develop experiments. They study the causes of diseases and other health problems in a variety of ways. Medical scientists usually specialize in an area of research, with the goal of understanding and improving human health outcomes.

Nottingham High School

Business Technology

***New** Artistic Innovative Design

Natural Resources

Construction Technology

Business Technology

Career Opportunities:

- Accountant
- Advertising
- Data Analyst
- Banking
- Business Administration
- Communications/Info Technology
- Entrepreneurship
- Human Resources
- Legal
- Marketing
- Public Administration
- Public Relations
- Sales/Business Development
- Transportation & Supply Logistics

The Business Technology programs will provide skills necessary to pursue business or finance degrees in college, learn the fundamentals of running a successful business and develop career ready practices.

Construction Technology

Career Opportunities

- Construction Trades
- Framing Carpenter
- Craft Laborer
- Mason
- Drywall Finisher

The Construction Technology Program teaches students the essential skills needed to begin a career in the building and construction trades. Upon program completion, SCSD students will have mastered hands-on skills and obtained industry credentials.

*New Artistic Innovative Design

Career Opportunities

- Communications Design
- Design Studies
- Environmental and Interior Design
- Fashion Design
- Industrial and Interaction Design

The Artistic Innovative Design program is partnered with the Syracuse University School of Design. This program teaches students the essential skills needed to begin a career in design. Students will work with professionals from the Syracuse University School of Design and Syracuse-based technology companies.

Natural Resources

Career Opportunities

- Environmental Engineer/Scientist/Specialist
- Natural Science Manager
- Wildlife Biologist
- Soil Science
- Hydrologist
- Waster Management
- Urban Planner

Students will develop an integrated view of the biological, ecological and social dimensions of the environment. Skills acquired will include planning and design, conservation management, bio-processing engineering, chemistry, land surveying and park maintenance.

What pathway will you take?

Preparing for the CTE Program Interview

Your opportunity to learn and ask questions about CTE and the programs

- Look and be your best to make a great first impression
- Be yourself; Be honest, and have a positive attitude....smile!!!
- Answer the questions yourself
- Talk about why you are interested in a program
- Tell the interviewers about your interests and extra-curricular activities....fun stuff!
- Talk about you favorite class and the class you struggle with (and why).
- Tell them about what you do when you have trouble in school (academically or otherwise).
- Talk about why you did well in class...and you did not...if that is the case.
- Attendance is important...talk about why you have good attendance...or why you do not

Syracuse City School District Web Page

- From the home page, hover over departments and select CTE
- Links to information on each CTE program
- Videos of CTE teachers talking about their programs
- PowerPoint presentation on all CTE programs
