June 26, 2023

Anthony Q. Davis
Superintendent of Schools
Syracuse City School District
725 Harrison Street
Syracuse, New York 13210

Dear Anthony Davis:

Your career and technical education (CTE) program re-approval application has been approved. Congratulations on the successful completion of the re-approval process for Emergency Medical Technician, Classification of Instructional Programs (CIP) code, 51.0904. Use this CIP code for all data collection pertaining to this program. Your program is approved for one unit of integrated English Language Arts and one unit of integrated science.

Re-approval is granted for the 2023-24 school year. As long as the approved components and appropriately certified staff remain in place, this program re-approval remains in effect until June 30, 2028. Technical endorsements may be added to the diplomas of students completing this program for this re-approval period beginning with the graduating class of 2024.

Health sciences programs requiring approval to operate (Dental Assisting, Emergency Medical Services, Home Health Aide, Nurse Assisting, and Practical Nursing) are required to maintain operational approval throughout the program approval period. Operational approval is an additional approval process that is distinct from the NYSED CTE program approval that this letter confers. More information about operational approval is found at <http://www.nysed.gov/career-technical-education/health-sciences-program-approval-information>.

This program approval neither constitutes nor implies approval for eligibility decisions for training funds from any source. Requests for approval to access such funds must be directed to the person or agency responsible for those funds.

The Department should be informed of any significant modifications (e.g., changes in technical assessment, teacher, or program content) of this program. Staff are available for consultation should you require technical assistance (please refer to your SED program number, 01528). You will be notified if your program is selected for a site visit in the future.

Best wishes for the continued success of this program.

Sincerely,

Deborah Reiter
Bureau Chief
