

Gardening for Patient Restfulness

State University of New York College of
Environmental Science and Forestry

Dr. Lee Newman – Therapeutic Horticulture

Therapeutic Horticulture is essentially using gardening as a form of mental and social therapy. ESF has partnered with the Syracuse Veterans' Affairs Medical Center (VA) on just such a program for over a decade. Students will assist with plant care and education programs designed to engage VA patients with nature and restfulness.

What You'll Learn / Do

- Learn to manage indoor and outdoor plants used as part of a hands-on gardening program
- Support ESF staff, VA recreational therapists, and volunteers in running educational programs

Tentative Time / Schedule

Fridays in July & August from 10:30am – 12:30pm

Students: 1-2

Ideal CTE Programs

Health Professions

Medical Assisting

Natural Resources
