Commitments		
1	Academic	This school is committed to ensuring that all students, especially our diverse learners, have the critical thinking and reasoning skills they need to excel at school and beyond.
2	Academic	This school is committed to ensuring that all students, especially our diverse learners, have the numeracy and literacy skills to prepare them for any path they choose.
3	Attendance	This school is committed to ensuring all students feel a sense of belonging and attend school daily.
4	Student Supports	This school is committed to aligning and maximizing resources to serve and impact each student's needs.

### School Identified Key Strategies (Maximum of 6)

**Directions:** Use the school's needs assessment results to identify strategies from each drop-down menu that the school will prioritize. Refer to the Strategy Companion Guide for additional guidance on each strategy. Note, this means **a maximum of six strategies** across the four commitments. Confirm whether the strategy is "new" (N) – "expanded" (E) – "refined" (R)."

	Commitments		Key Strategies <i>(Refer to Strategy Companion Guide)</i>	N-E-R
1	This school is committed to ensuring that all students, especially our diverse learners, have the critical thinking and reasoning skills they need to excel at school and beyond.	1	4) Accountable Talk: Balancing Community, Knowledge, and Rigorous Thinking	E
		2	Claim, Evidence, & Reasoning	N
2	This school is committed to ensuring that all students, especially our diverse learners, have the numeracy and literacy skills to prepare them for any path they choose.	3	2) PLC: Promoting a Collaborative Culture	R
		4	Tier I or Tier II Intervention Practices	N
3	This school is committed to ensuring all students feel a sense of belonging and attend school daily.	5	Implementing an Effective Attendance Team	E
4	This school is committed to aligning and maximizing resources to serve and impact each student's needs.	6	Personalized Student Learning Plans	E

**Academic Commitment #1:** This school is committed to ensuring that all students, especially our diverse learners, have the critical thinking and reasoning skills they need to excel at school and beyond.

<b>Key Strategy 1: Accountable Talk – Balancing Community, Knowledge, and Rigorous Thinking</b>	<a href="#">SY2526 PD Plan [Ed Smith].xlsx</a>	<b>School Lead:</b> Kris Winschel
---	--	--------------------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students?** Based on NYS tests and NWEA assessments, academic discourse and higher-level thinking which are outcomes of effective *Accountable Talk* were identified as a district priority. Therefore, all schools are expected to implement this strategy.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.**

In the 2024-2025 school year, we implemented Accountable Talk Moves across the entire building as part of a district-wide initiative prioritizing professional development time to introduce the concept as well as to begin planning for implementation in daily lessons. For the 2025-2026 school year, we will expand our work with Accountable Talk Moves. Based on our Needs Assessment, the implementation of Accountable Talk across grade levels and content areas was inconsistent. Our walkthrough tool and staff reflection revealed that staff need additional professional development support in creating lessons rich in Accountable Talk Moves.

Through differentiated professional development opportunities and regular walkthrough cycles we will engage in a continuous improvement feedback cycle with staff. Additionally, this process will positively impact student outcomes across standardized tests by improving students' abilities to discuss their learning. We will know that this initiative has been completed when 100% of teachers are using Accountable Talk Moves with at least 75% of learners participating in academic discourse during any walkthrough.

#### IMPLEMENTATION PLAN (AUGUST – OCTOBER)

Essential Action Steps (Begin with a verb)	Timeline	Person(s) Responsible	Resource Alignment (PD, Budget, People, Time, etc.)	P
Create and administer a needs assessment to determine staff knowledge and understanding of Year 1 implementation of Accountable Talk.	By August 2025	Karen Earl, Alyssa Stanek	Articles: Accountable Talk, PD Planning Committee, People: Admin., coach Student Discourse Data Collection Tool	
Analyze data and design differentiated professional development sessions on 6-8 week cycles that focus on specific Accountable Talk Domains (Community, Knowledge, Rigorous Thinking)	By Sept. 30, 2025	Karen Earl, Alyssa Stanek, Content Leads	Identifying the articles and excerpts from books Pre-planning meetings in August, PD Planning Committee	
Revise our Student Discourse Data Collection Tool to support gathering data of all three domains of Accountable Talk.	By Sept. 5, 2025	Alyssa Stanek	District PD Team support: Manami, Barber, Content Leads – Finetune existing tool	
Assess the fidelity of implementation by conducting walk-throughs, and collection of data utilizing the Student Discourse Data Collection Tool.	Beginning Oct 2025 and On-going	Andrea Ellis, Karen Earl, Tamara Curry, Jaime Sanjurjo, Alyssa Stanek	Admin., Coach, Teacher Leaders, Critical Friends Group. Identify time on PLC Calendar. --	--	-----------------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students?** Consider both data trends observed and student interview responses. There is a need to focus on and emphasize writing as an extension of our Commitment –1 work during the 2024-2025 school year. Based on the staff findings, 22% indicate there needs to be a deeper focus on developing critical thinking and reasoning skills. Last year, “Using Graphic Organizers and Scaffolds to Support Diverse Learners”, was the 2<sup>nd</sup> selected strategy in Commitment #1. In analyzing that selection, 78% found this strategy to be favorable in meeting the needs of diverse learners. However, we wanted a deeper alignment to writing across the content area based on our writing scores within the NYS assessments. As a result, the utilization of graphic organizers and that work should “live” within the writing process to help students conceptualize their thinking and processing. Selecting CERs allows for this process and allows for the work to build usage and awareness around scaffolds to continue while reinforcing a deeper connection to Key Strategies of PLCs and Tier 1 and Tier 2 Practice in Commitment #2.

<b>Key Strategy 3:</b> PLC: Promoting a Collaborative Culture	<a href="#">SY2526 PD Plan [Ed Smith].xlsx</a>	<b>School Lead:</b> Alyssa Stanek
--	--	--------------------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students?**

In the 2024-2025 school year, we implemented an 8-week PLC cycle to ensure that teachers were able to regularly collaborate regarding effective instruction and students' academic progress. The Needs Assessment revealed that over 90% of teachers were unsure of the PLC process and how to use the four guiding questions effectively. For the 2025–2026 school year, we will refine our PLC process to ensure that teachers are able to lead their own PLTs with fidelity in order to answer the four guiding questions. We will know we are successful when 10 out of 14 PLTs can regularly implement an effective meeting cycle with each of the four guiding questions being addressed.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.**

Although PLTs were introduced in the 2024-2025 school year, there was considerable confusion amongst staff regarding the process. In addition, staff needed additional training to better understand each guiding question and its purpose. In the 2025-2026 school year, we will refine our PLC process by formalizing team roles, protocols, and procedures. In addition, we will model the effective use of PLTs by participating in the 15-Day Challenge and making adjustments in next steps as needed.

<b>Key Strategy 5:</b> Implementing an Effective Attendance Team	<a href="#">SY2526 PD Plan [Ed Smith].xlsx</a>	<b>School Lead:</b> Karen Earl
--	--	--------------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students?** Despite efforts to decrease chronic absenteeism, specifically with our identified subgroups, our Needs Assessment revealed that Ed Smith continues to struggle with disproportionality. In fact, the Needs Assessment revealed that our Black and Multiracial students are 10% and 15% more likely to be chronically absent than their white counterparts and our students with IEPs being 14% more likely to be chronically absent than their counterparts without IEPs.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.** In the 2024-2025 school year, our Attendance Team began using targeted data to minimize chronic absenteeism both overall as well as in our identified subgroups. However, our outcome was not as effective as we intended. For the 2025-2026 school year, we will refine our Attendance Team processes by identifying team roles as they relate to tracking subgroup data as well as streamline targeted supports for students and families to minimize absences as a whole. We will know this has been completed when the chronic absenteeism of students in our subgroups has been reduced by 5%.

#### IMPLEMENTATION PLAN (AUGUST – OCTOBER)

Essential Action Steps (Begin with a verb)	Timeline	Person(s) Responsible	Resource Alignment (PD, Budget, People, Time, etc.)	P
Use the 2024-2025 chronic absenteeism data to identify students that missed more than eighteen school days and call each family before the start of the school year to identify any barriers that can be mitigated at the beginning of the school year to improve 2025-2026 attendance.	by 9/1/25	Cameron Cilano	Time to run lists and call families before student arrival, use of Attendance Team	
Use the 2024-2025 absenteeism data to identify students in each subgroup that missed more than ten school days and contact each family before the start of the school year to review the impact of attendance on academic success as well as identify any barriers that can be mitigated to improve attendance in the 2025-2026 school year.	by 9/1/25	Samantha Clemons	Time to run lists and call families before student arrival, use of Attendance Team	
Review organizational chart for the Attendance Team assigning team members to the three intervention levels (yellow (initial need), orange (concerning need), red (danger of chronic absenteeism) to support interventions at the classroom and building level as well as assign team members to oversee attendance for each subgroup and then share with entire staff.	by 9/30/25	Karen Earl	Time during first faculty meeting to present model, Attendance Team to present	
Create a calendar of monthly attendance incentives share with students, family, and staff.	by 9/30/25	Makeba Bean	Attendance Team to create and share calendar with students and staff, money devoted to buy incentive items

<b>Key Strategy 5:</b> Implementing an Effective Attendance Team	<a href="#">SY2526 PD Plan [Ed Smith].xlsx</a>	<b>School Lead:</b> Karen Earl
--	--	--------------------------------

**What did we learn from our needs assessment that suggests this is the right Key Strategy and will have a positive impact on students?** Despite efforts to decrease chronic absenteeism, specifically with our identified subgroups, our Needs Assessment revealed that Ed Smith continues to struggle with disproportionality. In fact, the Needs Assessment revealed that our Black and Multiracial students are 10% and 15% more likely to be chronically absent than their white counterparts and our students with IEPs being 14% more likely to be chronically absent than their counterparts without IEPs.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.** In the 2024-2025 school year, our Attendance Team began using targeted data to minimize chronic absenteeism both overall as well as in our identified subgroups. However, our outcome was not as effective as we intended. For the 2025-2026 school year, we will refine our Attendance Team processes by identifying team roles as they relate to tracking subgroup data as well as streamline targeted supports for students and families to minimize absences as a whole. We will know this has been completed when the chronic absenteeism of students in our subgroups has been reduced by 5%.

**Using the school's needs assessment and considering root causes, why is the school selecting this strategy?**

According to our Needs Assessment, 65% of students including those in our identified subgroups are still performing below grade-level on New York State assessments as well as NWEA and DIBELS.

For the 2025-2026 school year, we have chosen to expand the use of Personalized Learning Plans in order for students to establish and track their own goals related to academics, attendance, and behavior and build a sense of ownership and accountability for their progress in these areas.

**If this is not a new key strategy, provide 1-2 sentences on how the school will expand or refine the key strategy.**

In the 2024-2025 school year, we utilized student goalsetting booklets to help students create and monitor their academic goals. In the 2025-2026 school year, we will expand this work by adding students' goals for attendance and behavior as well as formalizing the process for students to track and share their progress with stakeholders.

We will know we have been successful when 75% of students can speak to at least one goal and their progress towards meeting it.

## EVIDENCE-BASED INTERVENTION

All key strategies pursued by schools should be rooted in evidence. All schools must implement at least one evidence-based intervention that meets the criteria of a Tier 1, Tier 2, or Tier 3 evidence-based intervention under ESSA. More information can be found at: <http://www.nysed.gov/accountability/evidence-based-interventions>.

School teams should indicate **all** of the evidence-based interventions that meet the federal definition that will be pursued next year by placing an "X" in the corresponding box below. Schools that adopt the State-Supported Evidence-Based Intervention **under the parameters outlined** at: <https://www.nysed.gov/accountability/state-supported-evidence-based-strategies> will fulfil the evidence-based intervention requirement.

**State-Supported Evidence-Based Interventions**

Mark "X" if the school  
will implement this in  
25-26

## LEARNING AS A TEAM

Directions: After completing the previous sections, the team should complete the reflective prompt below.

### Student Interviews

Describe how the Student Interview process informed the team's plan.

A guiding principle of our SCEP is to ensure student voice is central to the actions being developed in the SCEP. In the SCEP development process, we consciously ensure that teacher actions foster building strong and collaborative classroom communities where students demonstrate a high degree of engagement and think critically as learners. Utilizing our student interviews, we were able to see the desired actions from the students' perspective. There express inconsistencies in fostering this mission. Students gave clear and honest feedback around the goal-setting process and the consistency they need to improve their academic outcomes. Additionally, students stated they want a greater emphasis on strong CREW and morning circle structures. As a result, the Commitment Teams analyzed the action steps to ensure each Sprint consisted of progress monitoring aligned to student voice and collaboration.

### Subgroup Spotlight

Describe how the team has determined that the strategies in this plan are likely to result in improved subgroup performance for the subgroup(s) for which the school has been identified.

Ed. Smith has an ATSI designation based on our Black, Economically Disadvantaged (ED), and Special Education students. As a strategy, we have elected to focus on strengthening Tier I and Tier II instruction to align these strategies to our PLT Plan. We believe that if teachers strengthen how they plan for instruction and utilize the PLC structure to do so, we will take a proactive approach to planning and differentiating instruction and interventions. Additionally, our school-wide goal setting strategies heavily focus on analyzing subgroup data, which will be closely monitored throughout the year. There are four (4) data talk sessions built into the SCEP that will include the analysis and progress monitoring of subgroup performance. Four times during the year, teachers and grade level team will be required to articulate the progress of the monitored subgroups and identified students.
